All animals (marketing, breeding, dairy) need to remain in the barn until at least Friday 12:00 noon at the end of fair. If an animal needs to leave early for whatever reason the decision must be approved unanimously by the superintendent, fair board, and the extension office.
- Any animal weighing less than minimum or more than maximum may take as many trips as needed across the scale to make weight until scale is closed. Animals should be clean and free of debris. Weight limit will be strictly enforced by the Northwest Kansas District Free Fair board.
- Weigh in will be conducted at the discretion of the superintendent in an orderly fashion. If an exhibitor chooses to waive his/her spot in line (exhibitor must notify superintendent), the exhibitor must wait until all other animals are weighed and weigh in at the end.
- Any animal that does not make weight (over or under) can show in the show but cannot sell or participate in the grand drive. Only those meeting the weight requirements will be allowed to sell in the 4-H livestock sale. Others may sell at a floor price if a bid can be obtained for those animals.
- Producer certification forms are required and due at time of weigh-in for every animal. Exhibitor will not be allowed to show or sell if the producer certification form is incomplete.
- Animals must be withdrawn from all drugs according to withdrawal time on any given drug. Any animal not meeting withdrawal dates by weigh-in of the Northwest Kansas District Free Fair will not be allowed to show or sell. This is in compliance with federal regulations of all animals entering any processing locker.
- All animals are subject to examination by the exhibition staff or their representatives, and shall be free of clinical signs of infectious or contagious disease.
- If the 4-H’er is unable to attend a show, another Sherman County 4-H member can show in their place. If exhibitor has more than one animal in the same weight class, a Sherman County 4-H member must show the other animal.

This applies to all species, all classes, and all shows.

- Exhibitor can only transfer an animal from exhibitor with in the immediate family because of sickness or death with the animal. Transfer must be approved unanimously by the superintendent, fair board, and the extension office.
- Each exhibitor must care for and groom his or her own animal and may use only the assistance of a family member, Sherman County project leader, or another Sherman County 4-H member who is an exhibitor at this year's livestock show. No hired professional groomers will be allowed. This rule will be strictly enforced and any exhibitor violating it will have their animal in questions eliminated from competition.
- Exhibitor is required to own the animal (breeding, dairy, market). The same animal cannot be shown in both market and breeding classes.
- First and second blues places in each class are eligible to compete for champion and reserve champion market animal regardless of class size, if the judge feels it is a worthy entry.
- 4-H Homegrown Livestock - The purpose is to give an opportunity for locally produced animals to be used as projects and receive recognition. The animals must be bred, managed, and produced by a Sherman County livestock operator. Homegrown determination needs to be made at spring weigh-in. Homegrown awards are determined during the final drive of each market class. Breeding animals are not eligible.
- Tri-state royal showman representative for the county will be designated for each specie by the judge at the end of the showmanship judging. Champions of the three age divisions will return to the ring for judging.
- Northwest Kansas District Free Fair board is not responsible for lost or injured animals that are taken outside of the livestock barns' perimeter fence anytime during the fair. Encouraged to keep animals properly stalled. If it is necessary to exiting the perimeter animals must be properly controlled.

4-H Livestock Sale

- Each exhibitor will be eligible to sell only one market beef, one market sheep, one market goat, and one market swine. All other exhibits are not eligible. Exhibitors must sell their highest placing animal, but may substitute the next highest placing animal if he/she guarantees to exhibit the animal at a major approved show or wishes to retain female animal for breeding. Lightest weight animal will be used; member won't be able to sell a higher weight than the original animal. If an animal brought to the fair makes necessary (healthy) weight limit, but is not shown, the exhibitor loses the right to sell the animal.
- It is the responsibility of the 4-H member to submit the appropriate paperwork to specify which animal they are going to sell at the 4-H livestock sale as soon as possible following the show, but no later than Thursday 12:00 noon.
- Grand and reserve champions of all species will sell at the beginning of the 4-H livestock sale. The sale rotation order for that year will be followed for the grand and reserve as well as the sale of the other animals.
- Livestock Sale Rotation Order - The specie that is in the top position will rotate to the bottom position and all others will move up accordingly. 4-H livestock sale order can be found

in the appendix of this book.

- The Northwest Kansas District Free Fair Board has determined that if an animal goes through the sale that it is not to be made available for re-sale. What happens to the animal is to be the first choice of the buyer (ship to sale barn, send to a locker, or take home). If anyone wants to buy an animal for breeding purposes, they must go through the superintendent and the appropriate paperwork is to be filed with the superintendent and the clerks. Any corrections or questions should be dealt with only after the conclusion of the sale.
- Market animals will be released and shipped at the discretion of the superintendent. The Northwest Kansas District Free Fair Board will do its best to arrange loads for delivery to lockers, but don't always count on that. You may have to deliver it yourself. Animals sold during the 4-H livestock sale will take priority, extra animals will follow. The Northwest Kansas District Free Fair Board is still planning on making shipping arrangements for animals that are shipped to the sale barn at floor price.

Herdsmanship Award

- All livestock and small animal exhibitors are automatically entered into the herdsmanship contest as a club. This is not an individual contest. It is vital that our 4-H'ers learn the importance of properly taking care of animals, keeping the barns clean and presentable, and working together as a team.
- There will be a separate award for each barn; beef, sheep, goat, swine, poultry, and rabbit. Herdsmanship will be checked daily for the duration of the fair with no designated time of day each day. The judging committee will be superintendents from each of the livestock projects listed previously and one representative from the fair board. The winner of each barn will be selected during the afternoon of fair on Friday. Awards will be presented during the 4-H livestock sale. Checks will not be issued until the completion of the fair and all barns are clean. A club failing to properly clean up after fair will forfeit their award.
- Herdsmanship duties are the responsibility of all exhibitors and club members rather than leaders, advisors, or parents. If an exhibitor is going to be gone for any reason, it is their responsibility to ask another club member to water, feed, and care for their animals.
- Clubs do have an opportunity for bonus achievement points with livestock educational displays. This is a bonus, it can only help a club not hurt them. Livestock educational displays are encouraged to be informational, creative, innovative, etc. Displays can be posters, stall displays, etc. and should be in place by Tuesday noon of fair and remain up all week. Clubs with displays are required to collaborate with the respected species superintendent for available space.
- The herdsmanship judges will use a scoring guide in judging the contest. Judges will use one scoring guide sheet per club for the entire week. Herdsmanship judges will judge all barns. Scoring guide is available on the Northwest Kansas District Free Fair website (www.nwksfair.com).
- An award of \$100 per barn will be given. A club has the ability to win from \$100 to \$600 in herdsmanship awards at the fair. Each barn will be judged separately.
-

- **Round Robin Showmanship**
- Show will begin at 1:30 PM on Thursday of the fair.
- All participants will arrive at the livestock show ring promptly at 1:00 PM to review the rules and take the round robin quiz.
- The round robin showmanship contest gives an opportunity for champion showmen from the 4-H divisions in beef, swine, sheep, goats, and horse to compete head to head for the best all-round showman honors at the fair.
- Exhibitors must receive a blue ribbon in showmanship to qualify for the round robin showmanship contest in a species.
- There will be four (4) species of animals shown: beef, swine, sheep, and goat. Horse champions will be eligible to participate in round robin and horse will not be shown as part of the event due to space restrictions.
- The grand champion showman in beef, swine, sheep, goat, and horse will be eligible to compete in the round robin show.
- An exhibitor receiving grand champion in more than one species must inform a superintendent which specie they want to represent in round robin within 30 minutes of the completion of that exhibitor's last species.
- If for some reason the grand champion showman cannot or chooses not to show, the reserve grand champion showman in that specific species and age group will be eligible. Should the reserve grand champion decline, no other exhibitor will be considered.
- The superintendent or their designee of the five (5) species will work together to select five (5) animals that are suitable to be shown by multiple exhibitors with all showmen showing the same species in the ring at the same time. The superintendent or their designee will gain approval from the owner of each animal for their animal's participation. If five (5) animals cannot be identified for whatever reason, champions of all five (5) species will be eligible to participate in round robin with the species that are represented.
- Participants must ask for permission before working with someone else's animal or equipment prior to the show.
- Each exhibitor will be assigned a number for identification. Participants will draw the number of the animal they will show immediately preceding the competition. They may not show their own animal.
- There will be a 10-question general knowledge quiz (2 questions per species) to be used as a tie breaker. Participants will take the quiz prior to the start of the round robin contest.
- The round robin committee will determine the order of the show. It may vary from year to year depending on the number of participants in each division.
- The judge(s) will use a numerical scoring system to grade each individual in each species. Each judge will use the same scorecard to evaluate each participant.
- The round robin judge will be asked to rotate animals shown by exhibitors at least once in each species to help even out differences between animals.
- Each species, judging, and judge comments will last no more than 10 minutes (7 minutes with 3 minutes of judge comments).
- Ties will be broken: First, by the scores on a 10 question written quiz. Second, by the smallest difference between the highest and lowest species scores. Third, by the highest

species score.

- The round robin committee (beginning in 2020) will be comprised of the superintendent or their designee of the five (5) species. The decision of the judge(s) and the round robin committee are final.
